

Guide to Mundus Stones

updated October, 2018 - updated to reflect Murkmire changes

Mundus Stones are special ritual objects located throughout Tamriel. They are dedicated to 13 different constellations, each with its own particular effect. As a character may only have one Mundus Stone blessing at any given time (unless wearing 5 pieces of the Twice-Born Set which allows for two blessings to be active), activating a different Mundus Stone will replace your current blessing.

You can increase the effects of Mundus Stone blessings by up to 7.5% for each piece of armor in the Divines trait.
